Description Emergency Light Fixture
 MR-16 Lamp

Features

- Self-Contained Unit
- Fully Automatic Operation
- Compact Low Profile Design Neutral Finish
- Universal Mounting Plate provides Quick Labor Saving Installation
- Push To Test Switch
- Lead Acid 6 Volt Maintenance Free Battery
- Solid State Environmentally Coated Charger
- Automatic Low Voltage Disconnect
- 120 & 277 Volt Transformer
- Thermoplastic Injection Molded High Impact UL 94 V0 Housing
- LED Indicator - Charge Rate/Power On
- 5 Watt MR-16 Halogen Lamps
- 90 Minute Battery Backup Emergency Operation

General

Material: V-0 Thermoplastic
Color: See Table
Lamp Type: MR-16 Halogen - 5 Watt
Battery Type: 6 Volt Lead Acid

Dimension Information

Length: 11.75" 16" Incl. Lamps
Depth: 3"
Height: 5"

Specifications

Voltage Rating 120/277
Flammability Rating UL94V-0
Emergency Operation: 90 Minutes Minimum

Packaging

Box Qty 1
