

## Screwdriver Voltage Probe Tester

- ▶ Neon Glow Indicates Live Circuit for 80 to 250 Volt
- ▶ AC/DC
- ▶ No Test Leads Required
- ▶ Pocket Clip
- ▶ Insulated Screwdriver Tip

| Cat. No. | Box Qty |
|----------|---------|
| 59040    | 24      |

## Voltage Probe & Continuity Tester 12-300 Volts AC/DC

- ▶ No Test Leads Required
- ▶ Tests for Continuity, AC Voltage & Polarity
- ▶ Tests for Continuity without Wire Probes on Non-Energized Circuits
- ▶ Tests from 12 to 300V AC/DC on Energized Circuits
- ▶ LED Indicator Glows when Voltage/Continuity exists
- ▶ Handy Screwdriver Tip, Pocket Clip

| Cat. No. | Box Qty |
|----------|---------|
| 59050    | 20      |

## Non-Contact Power Detector 70-440 Volts AC

- ▶ No Direct Electrical Contact & No Current Flow Needed
- ▶ Sound & Light Indication of Voltage
- ▶ Tests Electrical Lines, Cables, Sockets, Fuses, Switches
- ▶ Checks for Proper Ground Connection
- ▶ Unique Electronic Sensor Locates Breaks Along Live, Insulated Wires & Power Cords
- ▶ Distinguishes Polarity
- ▶ Detects Leaks in Underground Devices

| Cat. No. | Box Qty |
|----------|---------|
| 59110    | 10      |

## Non-Contact Power Detector 100-240 Volts AC

- ▶ Locates breaks along live, insulated wires and power cord
- ▶ Detects voltage at outlet, lighting fixture, circuit breaker, cable
- ▶ Convenient pen size fits into pocket or tool pouch
- ▶ Audible and visual indication
- ▶ 3/16" Detection Distance

| Cat. No. | Box Qty |
|----------|---------|
| 59112    | 20      |

## Digital Phone Line Tester

- ▶ Detects dangerous surges in digital or analog phone lines
- ▶ Surge suppression circuit protects against voltage spikes & surges
- ▶ Built-in LED indicator allows testing of RJ11 4&6 position phone outlets for common trouble conditions such as dead or open lines, reversed polarity, & AC voltage
- ▶ Tests 2-Line phone systems
- ▶ Tests for Polarity
- ▶ Uses standard RJ11 jack & plug

| Cat. No. | Box Qty |
|----------|---------|
| 59180    | 20      |
